Paper is defined as an article, not a substance or a mixture. There are no known health or environmental hazards in the product. The product isn't classified hazardous according to Global Harmonized System (GHS). In case of fire: Water or powder can be used for extinguishing.

PRODUCT SAFETY MANAGEMENT

- Certified quality management system ISO 9001 at the mill
- Certified environmental management system ISO 14001 at the mill
- Certified health and safety management system ISO45001 at the mill
- EU Ecolabel
- EU Eco-Management and Audit Scheme (EMAS)
- In compliance with EU 2023/988 regulation on general product safety

PRODUCT COMPOSITION (PM1 production annual average composition)

DECLARATION OF COMPLIANCE

The paper grade **Alpinacoat** is tested for suitability for food contact. Its compliance with the following food contact, toy and packaging regulations is confirmed by an independent laboratory, ISEGA GmbH, Germany (registered no 63289 U 24).

The paper grade complies with:

- EU Framework Regulation for food contact materials 1935/2004
- Foodstuffs, Consumer goods and animal feed code (LFGB) version of notification September 15th 2021, last amendment by article 11 of the act of 6th May 2024, articles §§ 30 and 31, Germany (in direct contact with dry and non-fatty foods and food that is peeled, shelled or washed before consumption and may also be used for secondary packaging, temperatures up 90 °C)

- The German recommendation XXXVI of Bundesinstitute für Risikobewertung (BfR) as of the version the 1st August 2024
- The demands of the Council of Europe Resolution CM/Res (2020)9 on the safety and quality of material and articles for contact with food of 7 October 2020, sections 3.1 and 3.3 as well as of the supplementary Technical guide on paper and board used in food contact materials and articles, as of 2021

The paper grade has been manufactured in accordance with Commission Regulation (EC) No 2023/2006 in Good Manufacturing Practice.

Information of BfR XXXVI limited substances and dual use additives listed in EU 1333/2008 or 1334/2008 are available on request.

For your information that Alpinacoat reels manufactured in the mill are cut to sheets and packed using good manufacturing practices production sites.

In addition to food contact, the paper grade(s) are suitable to be used in toy and packaging applications.
