

MATERIAL DESCRIPTION

Coala Monstergrip is a 90µ white matt polymeric vinyl film coated with a high tack solvent acrylic pressure sensitive adhesive on a 145g/m² layflat liner. The adhesive is formulated for the powersport graphic and decal markets. Coala Monstergrip is recommended on Hard-to-stick plastics that require special high tack adhesives. This film is designed to accept a variety of solvent-based, latex and UV curable inks common to wide format digital printing systems.

PRINTER & INK COMPATIBILITY

FEATURES

- Face material: 90µ polymeric vinyl
- Finish: white matt
- Adhesive: solvent acrylic high tack
- Peel strength on stainless steel: 29N/25mm
- Release liner: 145g/m² white 2-sided PE-coated kraft

BENEFITS

- Polymeric vinyl
- High-tack glue
- Can be applied on low surface energy plastics including TPO, PP and HDPE.
- Fire resistant Euroclass B-s2,d0
- Outdoor durability: 5 years

STORAGE & SHELF LIFE

- 1 year if stored in original packing at ca. 22°C and 50% relative humidity
- Printed material should be completely dry and protected during transportation
- Temperature and humidity fluctuations should be avoided

THICKNESS

90
µm

APPLICATIONS

- Powersports vehicles, quads, snowmobiles, motocross, carts and helmets
- Hard-to-stick plastics that require special high tack adhesives
- Not suitable for full wrap

RECOMMENDATIONS

- Coala Protector is the matching laminate and provides the most protection for the helmet and powersport types of application.
- Minimum application temperature + 5°C

The following technical details are issued to the best of our knowledge, however, without any responsibility for results due to several different kinds of material and application processes. Therefore, we highly recommend that before every usage a test should be conducted on the original material. Antalis cannot be responsible for any damage to the printer caused by printing our media.
