

COALA TEXTILE WALLCOVER DIAMOND

MATERIAL DESCRIPTION

Coala Textile Wallcover Diamond is a 100% polyester perlescent woven fabric with permanent adhesive. Characterised by the special mother-of-pearl coating and is particularly well-suited for advertising in the beauty, jewellery and fashion sectors or as high-quality textile wall coverings to lend an elegant and exclusive optic. This textile is extremely stable under the effect of heat and may be printed with eco-solvent, solvent, latex and UV inks. One side printable fabric. PVC-free and certified in accordance with the Oeko-Tex® 100 IV Standard.

PRINTER & INK COMPATIBILITY

PROCESSING INSTRUCTIONS

- **Nature of the to be glued underground:** As smoother the underground as better is the adhesion of Coala Textile Wallcover Diamond to this ground. The undergrounds have to be free of oil, fat, dust, dirt and other impurities and dry.
- **Cleaning of the to be glued surface:** Use non Oil cleaner. Wiper has to be clean, lint-free and non greasy.
- **Pressure:** Strong pressure and good contact between Coala Textile Wallcover Diamond and the to be glued ground is necessary for optimal adhesion. Use a press roller if you install the material with hand. Laminators (e.g.: Rolls Roller) are well suited to stick Coala Textile Wallcover Diamond on exhibition walls, doors or other panels.

PROCESSING AND HANDLING CONDITIONS

- The optimal processing is at room temperature between +15 and + 25 °C and humidity of 50-60%. Coala Textile Wallcover Diamond should be stored in the production hall 24 hours before processing.
- Influence of strong heat (e.g.: light, lightspots) can lead to partial peeling off. The to be glued underground (e.g.: wall paper) should have a better adhesion to their base (e.g.: wall) than to Coala Textile Wallcover Diamond.

STORAGE

- Coala Textile Wallcover Diamond should be stored in a sun protected room at a temperature between +15 and +25 °C and a humidity of 50-60% (without direct sun radiation; max. 30 °C).

WEIGHT WITH LINER

FEATURES

- Highest print quality
- Perlescent surface
- Extremely dimensionally stable
- Trimming hot or cold (no fraying)
