

The art of contrast

Print Speed offset is a range of premium uncoated papers, which has become the benchmark reference in uncoated papers for more than 20 years. It provides a unique combination of premium whiteness, bulk and opacity to enhance the visual and tactile features of your printing documents.

Product features:

- + An optimized high whiteness
- + Smooth paper surface
- + Reliable performance & runability

Applications:

- Print Speed offset is designed for offset printing, providing consistent machine performance and excellent printing results.
- It is suitable for printing brochures, folders, flyers, desk calendars, note book covers, business reports, newsletters and mailings.
- A wide range of professional papers available in multiple formats and weights.
