Backing

White siliconised Paper. Chosen to aid flatness and feeding characteristics.

Grammage	76gsm
Thickness	71 microns

Environmental & Handling

Paper components are either ECF or TCF grade manufactured using pulp from sustainable, managed resources. All dimensions are nominal target specifications but may vary. All products within our range are manufactured to ISO 9001:2015 and BRC standards, the factory is also fully FSC certified. The raw material laminates are also made to the same ISO standards as above and to ISO 14001. The product packaging is designed to maintain original ideal RH levels and will survive being stored in a wide range of temperatures, however, it is essential that the material is allowed to recover to normal print room temperatures for a min of 48 hours before use. Best print room conditions are 20 deg C and 50% RH.

Markets and Uses

This product was designed to satisfy the widest range of general printed label requirements and to run reliably through the broadest range of printers. It is ideal for both commercial and in house printing. From branding labels to price labels, stock control and pretty much anything else a customer could need from a plain paper label.
